

ROZDEĽ KVETINKY MOTÝĽOM 1

Vyfarbi motýľov rôznymi farbami. Každý z nich sa potrebuje napíť práve z jednej kvetinky na lúke, aby nebol hladný. Vyfarbi pre každého motýľa práve jednu kvetinku jeho farbou. Budú ti kvetinky na lúke stačiť, alebo nie? Je ich viac, alebo práve toľko (rovnako), koľko potrebuješ?
