

ROZDEĽ KVETINKY MOTÝĽOM 3

Vyfarbi motýľov rôznymi farbami. Každý z nich sa potrebuje napiť práve z troch rôznych kvetiniek na lúke, aby nebol hladný. Vyfarbi pre každého motýľa práve tri rôzne kvetinky jeho farbou. Budú ti kvetinky na lúke stačiť, alebo nie? Je ich viac, alebo práve toľko (rovnako), koľko potrebuješ?
